Course	College/University	Year	CGPA/%
B.Tech CSE	Acharya Nagarjuna University	2021-25	72%
Intermediate/+2	Aditya Junior College	2019-21	97%
High School	Oxford Kennedy Convent HS	2019	10/10

SUMMARY

Computer Science graduate with strong foundations in Data Structures & Algorithms, Python, and SQL, and hands-on experience in backend development and scalable applications. Proven ability to solve complex problems and build efficient solutions. Seeking a Software Engineer role in a product-based or service-based organization.

SCHOLASTIC ACHIEVEMENTS

- Secured **15159 rank** in GATE CSE (Top 7%) [2026]
- Secured **10017 rank** in AP-EAMCET [2021]

WORK EXPERIENCE

- Python Developer Intern | PrepInsta** [01 Mar'24- 31 May'24]
 - Developed Python-based applications and practiced data handling
 - Worked on problem-solving and backend logic implementation
- Associate Prompt Engineer | Zensar** [30 Apr'26 - present]
 - Design, Optimize and maintain Natural language prompts for AI systems powering Autonomous Vehicles.(NVIDIA project)
 - Ensure that AV systems interpret and respond to complex instructions accurately and safely.

SKILLS & INTERESTS

- Programming Languages:** Python, SQL
- Core CS:** Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks
- Tools:** Power BI, Pandas, Git, Github
- Web:** HTML, CSS, JavaScript
- Databases:** MySQL Basic, MySQL Intermediate certified HACKER RANK
- Interests:** Software Development, Machine Learning

PROJECTS

- TrioNet | Dr. U. Satish Kumar** [Mar'25-Jul'25]
 - Developed a deep learning solution for plant disease classification using transfer learning on 20,000+ images (38 classes) from Plant Village dataset. Reached 99.0 test accuracy and 0.99 F1-score on DenseNet121. Increased validation accuracy by 2.3 via hyperparameter optimization and attained 92.3 ± 0.3 (5-fold CV). Created an ensemble solution achieving 93.8 accuracy, improving overall class robustness. Optimized the solution for deployment, reducing model size by 40 (quantization), and verified 78.6 accuracy in real-world scenarios
- Full Stack Application Development Project | edX** [Feb'24- May'24]
 - Created a web application using Django with an organized front-end and back-end, incorporating user authentication, listing properties, booking, and reviews.

RELEVANT COURSES

- Machine Learning Concepts & Applications | Data Analytics in Google Cloud | Power BI | Git & Github**

OTHER SKILLS

- Deep Learning :** CNN, Transfer Learning
- Machine Learning :** Supervised Learning, Classification
